The Pima Air & Space Museum

The Pima Air & Space Museum is one of the largest aviation museums in the world, and the largest non-government funded aviation museum in the United States. The museum maintains a collection of more than 300 aircraft and spacecraft from around the globe—including many rare and one-of-a-kind—and more than 125,000 artifacts. Exhibits at the museum include some of the world's greatest aviation heritage, including military, commercial and civil aviation. Among them are the SR-71 Blackbird—the world's fastest plane, a B-29 Superfortress—the highest flying and fastest WWII bomber, and a rare World War II German V-1 "buzz bomb." The museum has five large hangars totaling more than 177,000 square feet of indoor exhibit space. Pima Air & Space maintains its own aircraft restoration center, and also offers exclusive tours of the Aerospace Maintenance and Regeneration Group (AMARG), also known as the "Bone Yard" (across from the museum at Davis-Monthan Air Force Base).

The Pima Air & Space Museum is located at 6000 E. Valencia Road, Tucson, Exit 267 off Interstate 10. The museum is open daily except Thanksgiving and Christmas, from 9 a.m. to 5 p.m. with last admission at 4 p.m. Admission is \$15.50 (\$12.25 for Pima County Residents) for adults, \$12.75 for seniors 62 and older and active military, \$9.00 for youth 7-12, and free for children under 6.
